

Certified Arborist & Tree Removal Specialist

Certified arborist with strong tree removal & climbing skills. The ideal candidate should possess the knowledge of climbing, pruning and large tree take downs. Additionally, we are looking for a candidate who wants to help us grow our tree division, so the candidate should be able to bid on both residential and public projects. Candidate will be responsible for managing a crew, hands on work of pruning, stump grinding, tree removal & diagnostics. Additionally, coordinating and growing a tree division with an established plant health care division. Incredible opportunity for a growth minded individual looking to build something with the backing of a respected name and company in the green industry. Must possess the ability to communicate well with clients and staff and get the job done! It is a very fast paced environment. We have fun, but we work hard.

Traits of the successful candidate:

- Organized, neat person, able to complete accurate paperwork daily
- Highly responsible & committed to the highest industry standard for safety, workmanship & customer service
- Understanding of all current practices of Arboriculture including landscape installations & maintenance
- Ability to oversee & direct crew members in order to stay within given job parameters & budget
- Team player willing to jump in wherever needed

Minimum requirements to meet job eligibility:

1. College degree in a green industry field and/ or Three (3) years of experience
2. Thorough knowledge of machine operation (skidsteer, aerial lift, crane/bucket)
3. Vast knowledge in plant disease, diagnosis & pruning according to ANSI standards
4. ISA Certified Arborist
5. Valid NYS CDL or equivalent
6. Valid working documentation

Job Duties May include:

1. Continued training to further develop his/her own development
2. Training & time management of assigned crew
3. Ensuring all company policies implemented, including safety, are enforced at all times

4. Communicating & coordinating daily with project managers, department supervisors & clients
5. Must be available to work overnight, holidays & weekends during snow season. Available 24/7 during winter storm events. No snow days here.

Looking for someone who can start immediately and jump into this fast paced and challenging position. Highly responsible and qualified resumes only please via email.
